About Me

I'm a Ph.D. candidate at KAIST, South Korea. My research is focused on solving **computer vision** problems using **machine learning**. I am especially interested in **motion understanding**, so I have been working on video-related topics.

How to deal with the lack of labeled datasets is where I have expertise. I have mainly studied optical flow estimation with deep learning in an **unsupervised** or **semi-supervised** manner. Recently, I presented two optical flow papers (UnsupSimFlow and FlowSupervisor) at top-tier vision conferences; the two papers are related to unsupervised learning and semi-supervised learning, which are crucial in optical flow learning. I want to research similar topics related to motion understanding and label-efficient learning in the future.

Not only on the topics mentioned above, I'm knowledgeable about general computer vision tasks and robotics. I have implemented my code using Python, C++ with OpenCV, Tensorflow (1 and 2), and Pytorch while participating in many vision-related projects: face recognition, 3D teleportation, and multi-view line matching.

Education

- **KAIST, Ph.D., Computer Science** **2018-current**
  - Advisor: Professor Sung-Eui Yoon
- **KAIST, M.S., Computer Science** **2016-2018**
  - Advisor: Professor Hyun Seung Yang
- **Yonsei University, B.S., Computer Science** **2012-2016**

Projects

- Rendering for teleportaion in AR devices
  - Mar 2018 - Dec 2020, funded by National Research Foundation (NRF)
- Lab website renovation, Dec 2019 (sgvr.kaist.ac.kr)
- Age, gender, and expression recognition using face images
  - Dec 2016 - Feb 2018, funded by Korea Advanced Institute of Science and Technology
- Multi-view Face Recognition based on Deep Learning
  - May 2016 - May 2017, funded by Electronics and Telecommunications Research Institute (ETRI)

Experiences

- Teaching Assistants
  - GSAG-KAIST Research and Education Program, 1/2019-2/2019
  - CS206: Data Structure (Spring 2019), 3/2019-6/2019
  - CS688: Web-Scale Image Retrieval (Fall 2018), 9/2018-12/2018
  - CS101: Introduction to Programming, 9/2016-12/2017, 9/2018-12/2018
- Undergraduate Research Assistant
  - DB Lab, Yonsei University, 1/2014-2/2014
